PERSONAL PROFILE

A highly driven student who always aims to achieve the best results in project work and learn as much as possible. Known for always going the extra mile when it comes to work, putting in extra time to help in team projects. Possesses good experience working and communicating well in many different team environments. Demonstrates a great interest in design and loves working with others to critique and improve each others work. Looking for a placement to improve skills and get some experience in industry.

- Was awarded at the end of GCSEs
 - For hard work and dedication to the subject
-

LEISURE ACTIVITIES

I enjoy outdoor activities, such as camping and hiking. I love planning big backpacking trips with my friends. I am also Network scout. I really like paddle boarding, when I have access to water. I have a huge interest in digital art and photography, when I have time I like to create my own film poster of the movies using Illustrator and Photoshop, playing with fonts and different effects. Recently I have gotten into after effects animations and i'm looking at making my own google stickers.
